

INDUSTRY 4.0

JOIN US FOR THE NEXT AMP SoCal INNOVATION FORUM

The next wave of the industrial revolution takes a systems approach to the whole product life-cycle enabled by emerging technology advances such as Internet of Things, cloud computing, and cyber-physical systems. With Industry 4.0, isolated optimized cells will become connected and optimized across the system with fully integrated data and product flows.

ARE YOU READY FOR THE FUTURE?

Big Data and Analytics	Autonomous Robots	Simulation
Horizontal and Vertical System Integration	The Industrial Internet of Things	Cybersecurity
The Cloud	Additive Manufacturing	Augmented Reality

JOIN US FOR THE AMP SoCal INDUSTRY 4.0 WORKSHOP

This event is for small and medium sized manufacturers engaged in research and development. The results of the workshop will be a blueprint for establishing R&D project clusters through the IMS program to **share knowledge, provide broader solutions in less time, reduce research costs, and expand networks through building of domestic and international coalitions.**

WHEN: Friday, March 10, 2017
9 AM – 3 PM

WHERE: Ralph & Goldy Lewis (RGL) Hall – Rm 219
University of Southern California
650 Childs Way, Los Angeles, CA 90089

HOW MUCH: \$25 Registration Fee – Lunch and parking included
